EIGHT AMERICAN PRISONERS CAPTURED.

The Maine Disaster Repeated At Santiago, Says a Spanish Report.

Port Antonio, Jamaica, June 3,-(Special,)-Santiago advices say that the American fleet renewed the attack upon the harbor fortifications and Spanish warships at 3 o'clock this morning. This fire was well sustained until 4 o'clock. An American auxiliary cruise attempted to force a passage of the harbor, but was sunk by the ex plosion of a torpedo. Eight Americans were made prisoners by the Spanish. The story comes from Spanish sources and has not been confirmed from any other source.

The Washington Authorities Refuse to Credit the Jamaica Story.

Washington, D. C., June 3 - Special .- A brief bulletin telling of Schley's reconoisance at Santiago Tuesday is all the information the navy department has given out today. This bulletin confirms the press reports of the firing on the fortifications at Santiago. It appears from the bulletin that Schley concentrated his fire upon the Spanis It seems probable that had he found the conditions more propitious than they were, he would have made an assault upon the forts.

Notwithstanding the positive statument coming from Jamaica tha the second Spanish fleet from Cadiz has crossed the Atlantic and is about to join Cervera at Santiago, the officers of the Naval Department declare that the Cadiz fleet is still at Cadiz. Capt. Sigsbee, of the St. Paul, reported to the Navy Department to-day and had a conference with Acting Secretary Allen.

Thrall and Jones, the two newspaper men who were in prison at Havana and were exchanged for two Spanish officers, also reported at the Navy Department during the day.

Washington, June 3. (Special.) - The President informed the mem bers of the Cabinet when they met to-day to be in readiness to answer a summons to the White House, as he was expecting a report from Samp-son and the fleets at any moment now. This expectancy is based on the orders which were sent to Sampson when he was instructed to join Com modore Schley.

The transports with the troops are on their way, and word has been received here that the second division is off Key West. Before they reach Santiago Sampson and Schley are expected to have utterly demolished the fortifications at the entrance of the harbor of Santiago and Sampson's general orders are to take the city, capture or destroy the Spanish fleet at any cost.

Confined on board with the grave charge of desertion against him is an American who enlisted in the Cuban volunteers who were sent on the Florida, but who, according to Capt. The main features of the Florida expedition have been published, but additional details were learned from Pilot Silver and from Capt. Dorst, who had charge of the expedition. Although Spanish soldiers were within three miles of the landing place and two Spanish gunboats were only fivemiles away, absolutely no trouble was experienced in landing the stores. The Spaniards undoubtedly knew that stores and volunteers were being put on shore, but they did not come near. There were no interruptions during the entire three days the Florida spent in the harbor. He was rather surprised to learn that the charge for the cyster stew was only 20 cents. The stew had not been particularly good, but he naturally expected to pay something for incidental magnificence.

He walked out of the restaurant and stood in front, picking his teeth, as he felt that he had a right to do, having just eaten in the place.

He had a joyous sense of freedom and was keen with anticipation. He knew that no matter in which direction he moved the city would unroll itself in a panorama of new life, and that if he world but look he might see all the fashion, the architectural hat if he world but look he might see all the fashion, the architectural structure poverty of Chicago. He strolled away from the restaurant, wondering whys he had not come to the city years before.

SCIENCE OF WRESTLING.

Billy Muldoon, the great wrestler, has given some "tipe" in his art and says that every young man should learn the game as a means to the pres-ervation of good health. Says Mul-doon:

erration of good health. Says Muldoon:

"The reason why wrestling has quietly aunk into oblivion is because it has not the outward show of excitement that boxing has. It lacks a certain flerceness that pleases the majority of the public. There are no blows to bring out the brutal instinct, nor is the test of pluck so outwardly shown. The fact remains, and anyone will attest to it who knows wrestling, that pluck is required, just an auch as in boxing.

"I desire to recommend this exercise to young men and boys especially. I have been an athlete all my life and connected with others of the same profession. There is no exercise known which will better develop the human frame physically or give it such lasting powers to withstand sickness and ill health as wrestling. A boy needs, first of all, a strong frame.

He may look a good way before he can find a better opportunity for his purpose than wrestling. It strengthens the bones, enlarges the muscles, gives good wind and develops a pluck and determination that should not be neglected.

He was duly interested in the freaks of nature and chilled with horrow hen he saw nails diriven through the hands of "the woman who knows pain." Afterward he witnessed a stage performance given by perform's who could dance wonderfully well and were simply bubbling over with power jokes.
